**Q7. What was your impression of the event?**

**Any other comments:**

- It was good
- Amazing
- More VR as only one person could have a go at a time
- They were fun activities and I had a great time
- I enjoyed controlling a crane
- Most of it was military and I didn't find that particularly interesting
- Good freebees
- Add more interactive stations – science experiments and one school at a time because it was too crowded
