

# Homework Timetable: Year 10

## WEEK 1 & 2

<b>Monday</b>	Maths	Option Block B (Week 1)	Option Block C
<b>Tuesday</b>	Maths	Science	Option Block B (Wee 2)
<b>Wednesday</b>	Maths	Option Block D	RE (Week 1)
<b>Thursday</b>	Maths	Science	Option Block A
<b>Friday</b>	Maths	English	RE (Week 2)

*Homework is expected to take at least 40 minutes per subject as a general guide.  
Coursework and exam practice may take longer.*

*Should the HW not take the amount specified above, then pupils should use the remaining time to develop as independent learners by reviewing their notes, consolidating their learning and/or creating revision resources. The more pupils revisit work they have done, the more it will stick in their long-term memory.*

**Maths = 10 mins approx. to be completed for the following day – any larger homework will be given longer deadlines.**
