

Homework Timetable: Year 11

WEEK 1 & 2

Monday	Maths	English	Option Block D (Week 2)
Tuesday	Science	Option Block D (Week 1)	
Wednesday	Option Block A	RE	
Thursday	Science	Option Block B (Week 2)	
Friday	Option Block B (Week 1)	Option Block C	

*Homework is expected to take at least 40 minutes per subject as a general guide.
Coursework and exam practice may take longer.*

Should the HW not take the amount specified above, then pupils should use the remaining time to develop as independent learners by reviewing their notes, consolidating their learning and/or creating revision resources. The more pupils revisit work they have done, the more it will stick in their long-term memory.

Maths will be set once a week, but we recommend spreading this out so that Maths is practiced each evening.

MFL = HW will be set at the beginning of the week and you can select which day is best to complete it, depending on your workload.
