

WEEK 1 & 2

Monday	English	
Tuesday	Maths	RE
Wednesday	Option B	Option C
Thursday	Option D	
Friday	Science	Option A

*Homework is expected to take **40 minutes** per subject as a general guide.
Coursework and exam practice may take longer.*

Should the HW not take the amount specified above, then pupils should use the remaining time to develop as independent learners by reviewing their notes, consolidating their learning and/or creating revision resources. The more pupils revisit work they have done, the more it will stick in their long-term memory.

Maths will be set once a week, but we recommend spreading this out so that Maths is practiced each evening.
